Student Discipline

Discipline in the district, is based on a philosophy designed to produce behavior that will enable students to develop the responsibility, self-discipline and self-respect that are necessary for them to function optimally in their educational and social environments.

The major objective of discipline in the schools shall be to teach the following fundamental concepts:

1. Understanding and respect for individual rights, dignity and safety;
2. Understanding and respect for the law, Board policies, administrative regulations and school rules;
3. Understanding of and respect for public and private property rights.

The Board seeks to ensure a school climate which is appropriate for learning and which assures the safety and welfare of personnel and students. The superintendent will develop administrative regulations whereby those students who disrupt the educational setting or who endanger the safety of others will be offered corrective counseling and be subject to disciplinary sanctions.

The district shall enforce consistently and fairly all student conduct policies, administrative regulations and school rules.

A student whose conduct or condition is seriously detrimental to the school's best interests may be suspended or expelled in accordance with Board policies and administrative regulations.
