

FROM THE DISTRICT SUPERINTENDENT

Dear Parents and Community Members,

All students deserve an education that prepares them for their next steps in life, whether that's going to college or starting a career. Redmond School District is committed to providing a high quality, rigorous education to ensure that each student is on the path to success. In addition to a strong offering of core subjects, the district is pleased to offer state-of-the-art Career Technical Education options for students in both middle and high school. Course offerings in technology, marketing, computer coding, manufacturing, culinary arts, video production, business, agriculture, engineering, construction and nursing provide our students opportunities to apply skills in a real-world context that better prepares them for life and career.

The Oregon Department of Education has provided this report card to inform parents about district demographics, resources, and student outcomes. The achievement is measured by Smarter Balanced Assessment scores from the 2016-2017 school year. This statewide assessment is just one of several ways we measure student achievement. These results, when combined with teacher feedback and other measures, provide a more complete picture of student progress. We are pleased that Redmond School District elementary students demonstrated

consistent growth over the last two years in English Language Arts, Math, and Science and exceeded both the state average and like-district average in all three respective areas. Academic outcomes at the secondary level will continue to be an area of focus this upcoming year with the goal of achieving a positive trajectory across all assessed content areas. We are pleased that our Freshman On-Track and Graduation Rates continue to show strong gains and exceed both the state and like-district averages. It is important to note that our scores may not be representative of all students required to test, especially at higher grade levels where participation rates are lower. We are proud of the district's progress and will continue to focus resources on supporting growth for all students in their journey toward college and career.

Parents are essential to a child's success. By working together with your student's teachers and your school principal, you can identify ways of supporting your child both in and outside the classroom. Redmond School District is honored to have your partnership in this very important work of ensuring success for every student.

Thank you,

Superintendent | Michael McIntosh

DISTRICT PROFILE

STUDENT WELLNESS POLICY

Nutrition education is integrated within health education programs taught at every grade level and coordinated with nutrition services. Physical activity is included in each school's program and includes regular instructional physical education as well as co-curricular activities and recess.

RACIAL EQUITY IN HIRING

Redmond School District is committed to equal opportunity and non-discrimination in all of its educational and employment activities. The District does not discriminate on the basis of race, color, national origin, sex, sexual orientation, religion, disability or age in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups. Reasonable accommodations for the application & interview process will be provided upon request & as required in accordance with the Americans with Disabilities Act of 1990. Redmond School District is an equal opportunity employer
