Please remember that pay is **annualized** for your benefit using the following formula:

$$\frac{\text{(Hourly rate X hours per day X number of days scheduled (including paid holidays))}}{\text{Number of paychecks to be received}} = \text{Monthly Pay}$$

**The use of the pay periods above is primarily for the calculation of leave usage and extra hours worked.**

Annualized pay for 12-month employees pays through the end of each month plus any extra hours worked during the hourly period above.
